

XXIII Congress Italian Society of Vitreoretinal Surgery International Edition

TRIESTE, THURSDAY 8th JUNE 2023

REGISTRATION					
8.00 - 8.30	MAIN HALL	HALL 1	HALL 2	HALL 3	HALL 4
8.30 - 8.45	Everything you need to properly manage the myopic traction maculopathy		Free papers	WET LAB	
8.45 - 9.00					
9.00 - 9.15					
9.15 - 9.30					
9.30 - 9.45					
9.45 - 10.00	Focus on future: Basic not to be missed. Latest gene therapy in retinal dystrophies				
10.00 - 10.15					
10.15 - 10.30					
10.30 - 10.45					
10.45 - 11.00					
11.00 - 11.15	LIVE SURGERY	Clinical case debate Non-responsive nAMD: how to detect and how to treat			
11.15 - 11.30					
11.30 - 11.45					
11.45 - 12.00					
12.00 - 12.15					
12.15 - 12.30	Optimizing nAMD management using the new therapies	Complex therapeutic strategies in advanced diabetic retinopathy	135th Teaching Course with video Retinal Detachment: Diagnostics, Options for Repair		
12.30 - 12.45					
12.45 - 13.00					
13.00 - 13.15					
13.15 - 13.30					
13.30 - 13.45	LUNCH				
13.45 - 14.00					
14.00 - 14.15					
14.15 - 14.30					
14.30 - 14.45					
14.45 - 15.00	Macular hemorrhage management	Focus on future: Regenerative medicine. Will stem cells replace retinal tissue?	135th Teaching Course with video Retinal Detachment: Diagnostics, Options for Repair	WET LAB	
15.00 - 15.15					
15.15 - 15.30					
15.30 - 15.45					
15.45 - 16.00					
16.00 - 16.15	Retina battles Management of primary RD: scleral buckle VS vitrectomy and timing of surgery	An eye on DME: How to successfully treat naïve and non-responders	Free papers		
16.15 - 16.30					
16.30 - 16.45					
16.45 - 17.00					
17.00 - 17.15					
17.15 - 17.30					
17.30 - 17.45					
17.45 - 18.00					
18.00 - 19.00	OPENING CEREMONY & WELCOME COCKTAIL				

TRIESTE, FRIDAY 9th JUNE 2023

	MAIN HALL	HALL 1	HALL 2	HALL 3	HALL 4
8:30 - 8:45	LIVE SURGERY	Find your way in the periphery: "non plus ultra"- wide field		WET LAB	
8:45 - 9:00					
9:00 - 9:15					
9:15 - 9:30					
9:30 - 9:45		Automatic diagnostic systems for routine clinical practice			
9:45 - 10:00					
10:00 - 10:15					
10:15 - 10:30					
10:30 - 10:45					
10:45 - 11:00					
11:00 - 11:15	Dry AMD new incoming treatments: will they change our lives?	Tamponades: new vitreous substitutes and surgical adjunct	My worst case		
11:15 - 11:30					
11:30 - 11:45					
11:45 - 12:00					
12:00 - 12:15	Suprachoroidal space: a gateway for therapy	Key points to defeat PVR: anatomical and functional predictive factors, pharmacologic treatment, indispensable surgical steps	Pediatric retina surgery		
12:15 - 12:30					
12:30 - 12:45					
12:45 - 13:00					
13:00 - 13:15					
13:15 - 13:30	LUNCH SYMPOSIA				
13:30 - 13:45					
13:45 - 14:00					
14:00 - 14:15					
14:15 - 14:30					
14:30 - 14:45	RETINAWS Videosession Complex vitreoretinal surgery Rare surgical cases Unique surgical techniques	Advances in retinal diseases: best of BEAVRS		WET LAB	
14:45 - 15:00					
15:00 - 15:15					
15:15 - 15:30					
15:30 - 15:45					
15:45 - 16:00	Retinal diseases: slow progression or sponaneous resolution... We do not always have to rush to intervene	Clinical case symposium: interactive session	Glaucoma in retina surgery: how to deal with		
16:00 - 16:15					
16:15 - 16:30					
16:30 - 16:45					
16:45 - 17:00					
17:00 - 17:15	Innovative tecniques for secondary IOL implantation	Tag that spot! Laser in maculopaties	Free papers		
17:15 - 17:30					
17:30 - 17:45					
17:45 - 18:00					

TRIESTE, SATURDAY 10th 2023

	MAIN HALL	HALL 1	HALL 2	HALL 3	HALL 4
8:30 - 8:45	Idiopathic full thickness and lamellar macular holes: predictive factors and surgical advances for the best functional results	Ocular oncology basics for retinal specialist	Free Papers		Nurses symposium
8:45 - 9:00					
9:00 - 9:15					
9:15 - 9:30					
9:30 - 9:45					
9:45 - 10:00	LIVE SURGERY	Uveitis must-have for retinal specialists			
10:00 - 10:15					
10:15 - 10:30					
10:30 - 10:45					
10:45 - 11:00					
11:00 - 11:15	CSC: solve the problem	What's trending: social media for the eye surgeon			
11:15 - 11:30					
11:30 - 11:45					
11:45 - 12:00					
12:00 - 12:15					
12:15 - 12:30	Focus on future: Artificial retina. Does it work?	4-D visual systems in retinal surgery			
12:30 - 12:45					
12:45 - 13:00					
13:00 - 13.15					
13.15 - 13.30					
	Current standards in retinal surgery
